

RFID Card Reader

Card Reader 125khz

RCL 001

RCH 001

Card Reader 13,56 Mhz

Functions

RCL - 001 e RCH - 001 permettono la lettura e scrittura su tessere RFID.

Features:

- Interface RS232/USB to the PC
- High precision and stability in tag reading/writing.
- Collision avoidance algorithm
- High speed reading
- Low power consumption

Our readers RFID Card readers are used in different areas including:

- Identification systems and access control
- RFID cards programming
- Logistics
- Parking management and automatic charge
- Operation of the production lines
- Security systems

Technical Specifications

Models	RDD-LF-01, RDD-HF-01
Protocol	ISO14443, T5557, T5567, T5577
Frequency range	125KHZ RDD-LF-01, 13,56Mhz RDD-HF-01
Reading distance	120mm
Writing distance	3-5mm
Interface	RS232/USB
Power supply	Internal +5vdc
Antenna	Built-in
Signal	Buzzer, Led
Dimension	110mm*80mm*25mm
